

# Daniel's MC Intro Script

Daniel Bull is a history-making Aussie adventurer with three world records under his belt and more than 2 decades of experience not just surviving but thriving in the harshest environments on Earth.

After a journey encompassing life and death, constant risk and endless perseverance, Daniel became the youngest person in the world to climb the highest mountain AND the highest volcano on every continent.

Even more remarkable, he worked an office job by day and climbed mountain peaks at night, accomplishing his quest unsponsored.

You'll be interested to learn, Daniel isn't a reckless dare devil. He is in fact a highly cautious person by nature.

He is here tonight because he wants us all to challenge our beliefs about what is possible, defy perceived limitations, and continue to pursue our greatest goals.

Without further delay, please join me in welcoming the indomitable spirit and adventurer, Daniel Bull.
